

CURRICULUM VITAE

Karl W. Broman

Work

Department of Biostatistics and Medical Informatics
School of Medicine and Public Health
University of Wisconsin–Madison
2126 Genetics-Biotechnology Center
425 Henry Mall
Madison, Wisconsin 53706

Phone: 608-262-4633

Email: kbroman@biostat.wisc.edu

Web: <http://kbroman.org>

Home

7210 Longmeadow Road
Madison, Wisconsin 53717

EDUCATION

- | | |
|-------------|---|
| 1997 – 1999 | Postdoctoral Fellow, Center for Medical Genetics, Marshfield Medical Research Foundation, Marshfield, Wisconsin (Advisor: James L. Weber) |
| 1997 | PhD, Statistics, University of California, Berkeley (Advisor: Terry Speed; thesis: <i>Identifying quantitative trait loci in experimental crosses</i>) |
| 1991 | BS, <i>Summa Cum Laude</i> , Mathematics, University of Wisconsin–Milwaukee |

PROFESSIONAL POSITIONS

- | | |
|----------------|---|
| 2009 – present | Professor, Department of Biostatistics and Medical Informatics, School of Medicine and Public Health, University of Wisconsin–Madison |
| 2007 – 2009 | Associate Professor, Department of Biostatistics and Medical Informatics, School of Medicine and Public Health, University of Wisconsin–Madison |
| 2002 – 2007 | Associate Professor, Department of Biostatistics, Bloomberg School of Public Health, The Johns Hopkins University, Baltimore, Maryland |
| 1999 – 2002 | Assistant Professor, Department of Biostatistics, Bloomberg School of Public Health, The Johns Hopkins University, Baltimore, Maryland |
| 1999 | Associate Research Scientist, Center for Medical Genetics, Marshfield Medical Research Foundation, Marshfield, Wisconsin |

ADDITIONAL PROFESSIONAL APPOINTMENTS

Faculty member, Computational Systems Biology Cluster, University of Wisconsin–Madison
Affiliate faculty member, Department of Statistics, University of Wisconsin–Madison
Member, Genome Center of Wisconsin, University of Wisconsin–Madison
Faculty trainer, Biostatistics Training Program, Cellular and Molecular Pathology Graduate Program, Computation and Informatics in Biology and Medicine Training Program, Genetics PhD Program, Genomic Sciences Training Program, Master of Public Health Program, Plant Breeding and Plant Genetics Program, and Population Health Graduate Program, University of Wisconsin–Madison

RESEARCH INTERESTS

My research concerns statistical issues arising in problems in genetics and genomics. I focus particularly on the characterization of meiotic recombination and the development of improved methods for detecting and identifying genes contributing to variation in complex phenotypes in experimental organisms.

SCIENTIFIC ADVISORY BOARDS

2009 – 2016 Nature Source Genetics, Ithaca, New York

2010 – 2011 Wisconsin Genomics Initiative

HONORS AND AWARDS

Fellow of the American Statistical Association (2016)
 Graduate of the Last Decade Award, University of Wisconsin–Milwaukee Alumni Association (2001)
 Best Paper in *Genetic Epidemiology* in 1999, International Genetic Epidemiology Society (2000)
 John Wasmuth Fellowship in Genomic Analysis, National Human Genome Research Institute (1998)
 Evelyn Fix Prize for great promise in statistical research, University of California, Berkeley (1997)
 Outstanding Graduate Student Instructor, University of California, Berkeley (1997)
 University Fellowship, University of California, Berkeley (1994)
 Phi Beta Kappa Society (1991)
 General Chemistry Award, University of Wisconsin–Milwaukee (1989)
 Wisconsin All-State Scholar (1988)

PROFESSIONAL SOCIETY MEMBERSHIPS

American Statistical Association
 Genetics Society of America
 Institute of Mathematical Statistics
 International Biometric Society (ENAR)

EDITORIAL ACTIVITIES

Editorial Board Membership

2016 – present Senior Editor, *Genetics*

2016 – present Editorial Board, *BMC Biology*

2004 – 2010 Associate Editor, *Genetics*

2006 – 2009 Associate Editor, *Journal of the American Statistical Association*, Applications and Case Studies

2004 – 2007 Associate Editor, *Biostatistics*

Peer Review Activities

Referee for American Journal of Epidemiology; American Journal of Human Genetics; Annals of Applied Statistics; Annals of Human Genetics; Annals of Statistics; Arteriosclerosis, Thrombosis, and Vascular Biology; Bioinformatics; Biometrics; Biostatistics; BMC Bioinformatics; BMC Biology; BMC Genetics; BMC Genomics; BMC Medical Research Methodology; BMC Proceedings; BMC Research Notes; Cancer Research; Circulation Research; Computational Statistics & Data Analysis; Crop Science; European Journal of Human Genetics; Evolution; Gene; Genes, Brain, and Behavior; Genes & Immunity; Genetic Epidemiology; Genetica; Genetical Research; Genetics; Genetics Research; Genetics Selection Evolution; Genome; Genome Research; Genomics; Growth, Development, & Aging; Heredity; Human Genetics;

Human Heredity; Human Molecular Genetics; IEEE / ACM Transactions on Computational Biology and Bioinformatics; Journal of Agricultural, Biological, and Environmental Statistics; Journal of the American Society of Nephrology; Journal of the American Statistical Association; Journal of Applied Genetics; Journal of Bioinformatics and Computational Biology; Journal of Computational and Graphical Statistics; Journal of Fish Biology; Journal of Heredity; Journal of Immunology; Journal of Neuroscience; Journal of Open Source Software; Journal of Statistical Planning and Inference; Journal of Statistical Software; Mammalian Genome; Molecular Biology and Evolution; Molecular Ecology Resources; Molecular Genetics and Genomics; Nature Communications; Nature Genetics; Nature Methods; Nature Protocols; Nature Reviews–Genetics; Nucleic Acids Research; Ophthalmic Epidemiology; Pacific Symposium on Biocomputing; Physical Review Letters; Physiological Genomics; Plant Cell; PLOS Biology; PLOS Computational Biology; PLOS Genetics; PLOS ONE; Proceedings of the National Academy of Sciences USA; R Journal; Scandinavian Journal of Immunology; Science; Statistical Applications in Genetics and Molecular Biology; Statistics; Theoretical Population Biology; and Trends in Genetics

Book reviewer for Arnold Publishers, Chapman & Hall/CRC, Columbia University Press, Oxford University Press, Princeton University Press, Springer–Verlag, and Taylor & Francis

Review Panels

- | | |
|-------------|--|
| 2010 – 2015 | Center for Inherited Disease Research (CIDR) Access Committee, National Human Genome Research Institute, National Institutes of Health (<i>Chair</i> , 2014 – 2015) |
| 2006 – 2010 | Genomics, Computational Biology, and Technology Study Section (GCAT), Center for Scientific Review, National Institutes of Health |

Ad hoc Review of Proposals

Center for Inherited Disease Research Access Committee; Clinical Research Review Committee, National Center for Research Resources; Genomics, Computational Biology, and Technology Study Section (NIH); Hatch grant competition, College of Agriculture and Life Sciences, University of Wisconsin–Madison; Johns Hopkins Center for Alternatives to Animal Testing; Mammalian Genetics Study Section (NIH); Microsoft Research European Fellowship Programme; National Cancer Institute Special Emphasis Panel (NIH); National Institute of Environmental Health Sciences Special Emphasis Panel (NIH); National Institute on Aging Special Emphasis Panel (NIH); National Science Council (Republic of China); National Science Foundation; National Sciences and Engineering Research Council (Canada); Council for Earth and Life Sciences, Netherlands Organization for Scientific Research; Neurological Sciences and Disorders A Study Section (NIH); and Telethon (Italy)

PUBLICATIONS

Books

Broman KW, Sen Ś (2009) *A Guide to QTL Mapping with R/qtl*. Springer (ISBN: 978-0-387-92124-2)

Journal Articles

SOFTWARE AND OTHER RESOURCES

R/qtl	An R package for mapping genes contributing to variation in quantitative traits in experimental crosses (www.rqtl.org).
R/qtlcharts	An R package to create interactive data visualizations for quantitative trait locus mapping data (kbroman.org/qtlcharts).
aRxiv	An R package for searching arXiv, a repository of electronic preprints for computer science, mathematics, physics, quantitative biology, quantitative financy, and statistics. (github.com/ropensci/aRxiv).
git/GitHub guide	Online tutorial on the git version control system and its use with GitHub.com (kbroman.org/github_tutorial).
knitr in a knutshell	Online tutorial on knitr, a tool for creating documents that mix code and text (kbroman.org/knitr_knutshell).
minimal make	Online tutorial on GNU Make, for automating computational tasks (kbroman.org/minimal_make).
R package primer	Online tutorial on writing packages for the R statistical software (kbroman.org/pkg_primer).
Organizing data in spreadsheets	Online tutorial on how to layout experimental data within spreadsheets, such as Excel (kbroman.org/dataorg).
simple site	Online tutorial on constructing simple websites with GitHub Pages (kbroman.org/simple_site).
RelCheck	Software for the verification of relationships between individuals with use of autosomal genotype data.
Marshfield genetic maps	Genetic maps of the human genome, with internet-based tools for the search for genetic markers and semi-automated map construction.

EDUCATIONAL ACTIVITIES

PhD Advisees

Fred Boehm, PhD student, Statistics, University of Wisconsin–Madison

Jianan Tian, PhD student, Statistics, University of Wisconsin–Madison (Thesis: *Dissection and fine-mapping of trans-eQTL hotspots*), 2015

Il-Youp Kwak, PhD, Statistics, University of Wisconsin–Madison (Thesis: *Regression-based methods to map quantitative trait loci underlying function-valued phenotypes*), 2014

Ani Manichaikul, PhD, Biostatistics, Johns Hopkins Bloomberg School of Public Health (Thesis: *Statistical methods for mapping quantitative trait loci in experimental crosses*), 2007

Wei-Min Chen, PhD, Biostatistics, Johns Hopkins Bloomberg School of Public Health (Thesis: *Robust quantitative trait linkage analysis in extended human pedigrees*), 2004

Master's Advisees

Sungjin Kim, MS, Statistics, University of Wisconsin–Madison, 2011

Laura C. Plantinga, ScM, Biostatistics, Johns Hopkins Bloomberg School of Public Health (Thesis: *Inference of clusters of related individuals with dominant genetic marker data*), 2001

Undergraduate Advisees

Janel Barnes, summer student, Integrated Biological Sciences Summer Research Program, University of Wisconsin–Madison, summer, 2012

Leah Fehr, summer student, Integrated Biological Sciences Summer Research Program, University of Wisconsin–Madison, summer, 2008

Academic Advisees, Johns Hopkins University

2006 – 2007	Sheng-Chih Jin	ScM candidate, Biostatistics
2005 – 2007	Ani Manichaikul	PhD candidate, Biostatistics
2005 – 2006	Alex Phan	candidate for MHS in Bioinformatics
2005 – 2006	Jichao Chen	candidate for MHS in Bioinformatics
2004 – 2006	Snaebjorn Gunnsteinsson	PhD candidate, Biostatistics
2003 – 2007	Benilton Carvalho	PhD candidate, Biostatistics
2003 – 2005	Wenyi Wang	PhD candidate, Biostatistics
2000 – 2004	Wei-Min Chen	PhD candidate, Biostatistics
2000 – 2003	Michelle Shardell	PhD candidate, Biostatistics
1999 – 2001	Sora Kim	ScM candidate, Biostatistics

Other teaching

2016 – 2017	Instructor, Data Carpentry workshops, Advanced Computing Initiative, University of Wisconsin–Madison	
2008 – 2017	Periodic seminars on “Creating effective figures and tables” in the Department of Pathology and Laboratory Medicine, University of Wisconsin–Madison	
2008 – 2016	Instructor and co-organizer, Short Course on Systems Genetics, The Jackson Laboratory, Bar Harbor, Maine	
2013 – 2016	Lecture on “Creating effective figures and tables” to MD/PhD students, School of Medicine and Public Health, University of Wisconsin–Madison	
2008 – 2016	Lecture on my consulting experiences in Statistical Consulting (Stat 998), Department of Statistics, University of Wisconsin–Madison	
2016	Lecture on “Creating effective figures and tables” at the Demography Training Seminar, Center for Demography of Health and Aging, University of Wisconsin–Madison	
2015	Instructor, R/qtl workshop, Texas A&M, College Station, Texas	
2015	Lecture on “Reproducible Research” for undergraduate researchers in the Summer Institute for Training in Biostatistics (SIBS), University of Wisconsin–Madison	
2014 – 2015	Instructor, Software Carpentry workshops, Advanced Computing Initiative, University of Wisconsin–Madison	
2015	Instructor, Software Carpentry workshop, Washington State University, Pullman, Washington	

2014	Lecture on “Creating effective figures and tables” in a manuscript writing workshop, Institute for Clinical and Translational Research, University of Wisconsin–Madison
2013	Lecture on “A brief introduction to git and GitHub” to graduate students, Department of Statistics, University of Wisconsin–Madison
2013	Lecture on “Why aren’t all of our graphs interactive?” to graduate students in the Biostatistics Training Program, Department of Biostatistics & Medical Informatics, University of Wisconsin–Madison
2012	Instructor, Training Course on Field Trials & QTL Analysis using R and R/qtl, ICRISAT, Hyderabad, India
2012	Lecture on “Introduction to QTL mapping in model organisms” for undergraduate researchers in the Summer Institute for Training in Biostatistics (SIBS), University of Wisconsin–Madison
2012	Lecture on “Programming style” to graduate students in the Biostatistics Training Program, Department of Biostatistics & Medical Informatics, University of Wisconsin–Madison
2010	Lecture on “How to give a scientific presentation” to graduate students in the Biostatistics Training Program, Department of Biostatistics & Medical Informatics, University of Wisconsin–Madison
2008	Lecture on “Recombination and linkage” in Human Emphasis Group Graduate Student Seminar (NS 881, Schoeller), Nutritional Sciences, University of Wisconsin–Madison
2008	Lecture on “Recombination and linkage” in Genetic Epidemiology (PHS 904, Engelman), Population Health Sciences, University of Wisconsin–Madison
2007	Instructor, NeuroproMiSe Training Course in Genetic Analysis and Bioinformatics, Lund University, Lund, Sweden
2001 – 2007	Instructor and co-organizer, Short Course on Complex Trait Analysis, The Jackson Laboratory, Bar Harbor, Maine
2000 – 2007	Lecture on quantitative genetics in Advanced Topics in Human Genetics (Reeves and Feinberg) Human Genetics, Johns Hopkins School of Medicine
2004 – 2006	Lecture on “Statistical epigenomics” in Epigenetics (ME260.710, Feinberg), Johns Hopkins University School of Medicine
2003 – 2006	Lecture on “Experimental design and sample size determination for animal-based research”, Johns Hopkins University Animal Care and Use Committee seminar series
2002 – 2006	Instructor, QTL Mapping II module, Summer Institute in Statistical Genetics, formerly at North Carolina State University, now held at the University of Washington, Seattle
2003 – 2005	Lecture on “Perl for human linkage analysis” in Biocomputing I: Perl for Biocomputing (140.636, Pineda), Johns Hopkins Bloomberg School of Public Health
2004	Lecture on experimental design, statistics, and sample size determination, as part of an on-line course on Enhancing Humane Science—Improving Animal Research
1999 – 2000	Special studies course in longitudinal data analysis for Xin Liu, PhD candidate, Epidemiology

ACADEMIC LEADERSHIP AND PROGRAM DEVELOPMENT

2004 – 2007 Co-Director, MHS Program in Bioinformatics, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health

SERVICE ACTIVITIES

International and National

2016 – 2017 John M. Chambers Statistical Software Award Committee, Statistical Computing Section, American Statistical Association

2013 – 2014 Personalized Medicine Research Project (PMRP) Oversight Committee, Marshfield Clinic Research Foundation, Marshfield, Wisconsin

2013 Co-organizer, Complex Trait Community 12th Annual Meeting (Madison, Wisconsin)

2003 – 2004 ENAR Distinguished Student Paper Awards Committee

2003 IMS Contributed Papers Chair, ENAR/IMS Annual Meeting (Tampa, Florida)

University

2016 – present Genomics Advisory Committee, School of Medicine and Public Health, University of Wisconsin–Madison

2012 – present Steering Committee, Medical Scientist Training Program, School of Medicine and Public Health, University of Wisconsin–Madison

2012 – 2015 Faculty Advisory Committee, School of Medicine and Public Health, University of Wisconsin–Madison

2011 – 2015 University Library Committee, University of Wisconsin–Madison (*Chair*, 2014 – 2015)

2009 – 2012 Master of Public Health Program Curriculum Committee, School of Medicine and Public Health, University of Wisconsin–Madison

2009 – 2012 Curriculum Planning Committee, Biological Sciences Division, University of Wisconsin–Madison

2008 – 2012 Faculty Senator, University of Wisconsin–Madison

2002 – 2007 Maintainer of the Faculty Senate web site, Johns Hopkins Bloomberg School of Public Health

2001 – 2004 Faculty Senate representative to the Committee on Information Technology, Johns Hopkins Bloomberg School of Public Health

2001 – 2003 Organizer of a monthly discussion forum for junior faculty, Johns Hopkins Bloomberg School of Public Health

2001 – 2002 Secretary of the Faculty Senate, Johns Hopkins Bloomberg School of Public Health

2000 – 2002 Faculty Senator, Johns Hopkins Bloomberg School of Public Health

2000 – 2001 Biochemistry and Molecular Biology Strategic Plan Committee, Johns Hopkins Bloomberg School of Public Health

Departmental

2010 – present	Chair, Education and Curriculum Committee, Department of Biostatistics and Medical Informatics, University of Wisconsin–Madison
2015 – present	Scientific Advisory and Steering Committee, Biostatistics Computing Group, Department of Biostatistics and Medical Informatics, University of Wisconsin–Madison
2015 – 2016	Co-chair, Faculty Search Committee, Biostatistics and Medical Informatics, University of Wisconsin–Madison
2010 – 2013	Seminar organizer, Department of Biostatistics and Medical Informatics, University of Wisconsin–Madison
2010 – 2012	Steering Committee, Biomedical Computing Group, Department of Biostatistics and Medical Informatics, University of Wisconsin–Madison
2008	Committee for Information Technology Assessment, Department of Biostatistics and Medical Informatics, University of Wisconsin–Madison
2004 – 2007	Intellectual and Social Environment Committee, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health
2000 – 2002	Biostatistics Information Technology Committee, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health
2000 – 2001	Seminar organizer, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health

GRANT SUPPORT

Current Grant Support

System Genetic Analysis of Multi-Parent Crosses co-PI with Gary Churchill (Jackson Laboratory) <i>Develop statistical methods and software for the analysis of multi-parent crosses, such as the mouse Diversity Outcross population and the Collaborative Cross.</i> Role: Co-Principal investigator	07/01/15 – 03/31/19	NIH/NIGMS (25%)
A Program of Research in Population Cytogenetics Terry Hassold (Washington State), PI <i>Study meiosis in human oocytes and spermatocytes to examine the way in which homologous chromosomes find and synapse with each other and how these processes relate to the formation of crossovers, and to compare the recombination processes between human males and females, including the contribution of chromatin structure and interference to sex-specific differences in recombination rates.</i> Role: Co-investigator	12/01/10 – 7/31/20	NIH/NICHD (8%)
NIAID Centers of Excellence for Influenza Research and Surveillance Yoshihiro Kawaoka, PI <i>In a genetics study with Diversity Outbred (DO) mice, identify host genes that, in the context of a functional Mx1 gene, affect the outcome of H5N1 influenza virus infections.</i> Role: Co-investigator	04/01/14 – 03/31/17	NIH/NIAID (8%)
Alexander Disease: Mechanisms, Modifiers, and Therapeutics Albee Messing, PI <i>Identify genomic regions, and ultimately specific genes, that contribute to GFAP accumulation and toxicity in a mouse model of Alexander disease.</i> Role: Co-investigator	09/20/14 – 07/31/19	NIH/NIHD (5%)

- The Collaborative Cross Project of Diabetes
 Alan Attie, PI 04/01/14 – 01/31/19 NIH/NIDDK (5%)
Identify genes involved in type 2 diabetes using two mouse populations derived from the same set of eight founder strains: the Diversity Outcross and the Collaborative Cross. The project includes detailed phenotyping to identify genes and pathways associated with beta cell functions.
 Role: Co-investigator
- Collaborative Cross of the Microbiome and Metabolic Disease
 Federico Rey, PI 09/23/15 – 08/31/20 NIH/NIDDK (5%)
Identify genes and pathways that modulate gut microbial composition and abundance, and their association to disease, in the mouse Diversity Outcross.
 Role: Co-investigator
- Previous Grant Support**
- The Genetics and Evolution of Extreme Body Size in Mice from Gough Island
 Bret Payseur, PI 09/10/12 – 06/30/16 NIH/NIGMS (10%)
This project aims to integrate genetic mapping, comparative morphometrics, and population genetics to provide the first detailed genetic portrait of rapid body size evolution in an island mammal, using the Gough Island wild house mice, which have evolved extreme body size in just hundreds of generations.
 Role: Co-investigator
- Genome Dynamics: Evolution, Organization, and Function
 Gary Churchill (Jackson Laboratory), PI 04/01/06 – 06/30/16 NIH/NIGMS (9%)
In a project led by Petko Petkov and Ken Paigen, characterize recombination by detailed mapping of recombination events on a single chromosome in a larger mouse backcross.
 Role: Co-Investigator
- Statistical Methods for Analysis and Integration in Genomic Studies of Disease
 Christina Kendzioriski, PI 08/01/12 – 04/30/16 NIH/NIGMS (7%)
This project aims to develop and disseminate statistical methods to address challenges that arise in genomic based studies of disease, with particular focus on methods that integrate data across multiple platforms and scales to both identify as well as comprehensively characterize genomic features affecting an individual's disease course and/or likelihood of response to treatment.
 Role: Co-investigator
- Systems Genetic Analysis of Methamphetamine's Motivational Effects in Mouse AIL
 Abraham Palmer (U Chicago), PI 07/01/11 – 12/31/15 NIH/NIDA (10%)
Investigate the genetic underpinnings of the methamphetamine preference in mouse advanced intercross lines (AIL) and develop improved statistical methods and software for system genetics analysis in AIL.
 Role: Co-investigator
- Statistical Methods and Software for QTL Mapping
 Karl Broman, PI 06/01/05 – 05/31/15 NIH/NIGMS (30%)
Develop improved model selection methods of multiple QTL mapping in experimental crosses, develop improved methods for the analysis of recombinant inbred lines and related strains, develop and disseminate the R/qtl software for QTL mapping.
 Role: Principal Investigator
- Genes and Gene Networks Associated with Obesity and Diabetes
 Alan Attie (UW-Madison), PI 12/01/09 – 11/30/14 NIH/NIDDK (5%)
Identify genes and gene networks that play a role in the development of obesity-induced type 2 diabetes in a large mouse intercross with detailed clinical phenotypes and gene expression data on multiple tissues.
 Role: Co-investigator

- Genetic Complexity and Modifiers of Hirschsprung Disease
Michelle Southard-Smith (Vanderbilt University), PI 07/01/07 – 06/30/12 NIH/NIDDK (8%)
The goal of the proposed studies is to identify additional genes and gene interactions that impact aganglionosis in the Sox10tm model.
Role: Co-Investigator
- Statistical Methods for Experimental Genome Populations
Saunak Sen (UCSF), PI 07/01/07 – 06/30/12 NIH/NIGMS (10%)
The goal of this proposed research is to develop statistical design and analysis methods that will reduce experimental cost, make efficient use of existing resources, and better infer causation when we have incomplete control over the assignment of genetic factors to individual organisms.
Role: Co-Investigator
- Genetic Basis of WNV Competence in *Culex tarsalis*
Jason Rasgon (Johns Hopkins University), PI 07/01/07 – 10/31/11 NIH/NIAID (2%)
Identify genetic loci contributing to variation in West Nile virus vector competence in susceptible and refractory colonies of Culex tarsalis.
Role: Co-Investigator
- Genetic Basis of Nanophthalmos and Axial Hyperopia
Olof Sundin (Texas Tech), PI 09/01/09 – 08/31/11 NIH/NEI (10%)
Investigate the genetic and phenotypic diversity of extreme hyperopia, and identify common hypomorphic alleles of MFRP, the gene that causes nanophthalmos, and determine their effect on ocular structure.
Role: Co-investigator
- Mechanism of Inflammation-Induced Airway Hyperactivity
Wayne Mitzner (Johns Hopkins University), PI 12/01/04 – 6/30/07 NIH/NHLBI (3%)
Identify genetic loci contributing to variation in inflammation-induced airway hyperactivity in mice.
Role: Co-Investigator
- Center for Epigenetics of Common Human Diseases
Andrew Feinberg, PI 04/01/04 – 06/30/07 NIH/NHGRI (10%)
Develop tools for medical epigenetics, including epigenome discovery, its quantitative analysis, and its application to medicine.
Role: Co-Investigator
- Epigenetic Variation and its Determinants in Depression
James Potash, PI 04/01/05 – 06/30/07 NIH/NIMH (10%)
Establish the connection between genetic, environmental, and epigenetic factors and susceptibility to depression.
Role: Co-Investigator
- Genetic Mechanisms of Autoimmune Myocarditis
Noel Rose, PI 07/01/04 – 06/30/07 NIH/NHLBI (4%)
Identify genetic loci contributing to susceptibility to autoimmune myocarditis in mice.
Role: Co-Investigator
- Catechol-O-methyltransferase and Breast Cancer
James Yager, PI 09/21/04 – 06/30/07 NIH/NCI (2.5%)
The goal of this project is to conduct a rigorous experimental investigation of the hypothesis that decreased COMT activity results in increased DNA damage that contributes to increased cell transformation and breast cancer.
Role: Co-Investigator
- Core Center Grant: Biostatistical Center
Sheila West, PI 07/01/04 – 06/30/07 NIH/NEI (5%)
Provide biostatistics support for epidemiological research in ophthalmology.
Role: Senior Biostatistician

Older Americans Independence Center Linda Fried, PI <i>The Center is dedicated to developing the next generation of research to determine the causes and treatments for frailty in older adults.</i> Role: Advisory Board Member	06/01/03 – 06/30/07	NIH/NIA (1.5%)
Statistical Methods for Genetic Epidemiology Kung-Yee Liang, PI; Karl Broman, acting PI <i>Develop and implement new statistical methodology useful for genetic epidemiologic studies of complex chronic diseases.</i> Role: Co-Investigator	12/01/00 – 11/30/05	NIH/NIGMS (25%)
Portable Software for Mapping Quantitative Traits Ken Manly, PI <i>Design and test a graphical user interface for software R/qtl and ensure that the GUI makes the proper connections with the core program.</i> Role: Co-Investigator	09/24/04 – 08/31/05	NIH/NHGRI (5%)
Center for Craniofacial Development and Disorders Terri Beaty, PI <i>Biostatistical Core for program project on the genetics of craniofacial disorders.</i> Role: Co-Investigator	08/01/01 – 08/01/04	NIH/NIDR (5%)
Mouse QTL in Endotoxic Shock Roger Reeves, PI <i>Identify genomic regions contributing to susceptibility to endotoxic shock in mice.</i> Role: Co-Investigator	08/01/01 – 07/30/05	NIH (10%)
Genetic Basis of Nanophthalmos Olof Sundin, PI <i>Identify the gene responsible for nanophthalmos in a single large pedigree.</i> Role: Co-Investigator	08/15/01 – 06/30/04	NIH/NEI (10%)
Center for Craniofacial Development and Disorders Ethylin Jabs, PI <i>Map and identify genes contributing to susceptibility to craniofacial disorders by linkage in multiplex families.</i> Role: Co-Investigator	08/01/99 – 04/30/04	NIH/NIDR (10%)
The Genetics of Age Related Cataract in Salisbury Nathan Congdon, PI <i>Identify genes contributing to susceptibility to cataract</i> Role: Co-Investigator	09/30/00 – 08/31/03	NIH/NIA (10%)
JHSPH Faculty Innovation Fund grant Karl Broman, PI <i>Applications of tree-based models to identify epistatic interactions between QTLs in model organisms.</i> Role: Principal Investigator	05/01/01 – 04/30/02	JHSPH (30%)

INVITED PRESENTATIONS

Scientific Meetings

- 2016 Genome and Gene Mapping Satellite, Queenstown Research Week, Nelson, New Zealand
 Joint Statistical Meetings, Chicago, Illinois
 Conference on Learning Tools to Promote Reproducible Research and Open Science, Chicago Chapter,
 American Statistical Association, Chicago, Illinois
- 2015 Plant breeding symposium, Texas A&M, College Station, Texas
 Joint Statistical Meetings, Seattle, Washington

BioC 2015 (Bioconductor annual meeting), Seattle, Washington
 Complex Trait Community annual meeting, Portland, Oregon
 The Challenge of Inference from Genome to Phenome, CSIRO Chief Executive Cutting Edge Symposium,
 Brisbane, Australia
 American Association for the Advancement of Science (AAAS) annual meeting, San Jose, California

- 2014 Fourth Symposium on Biological Data Visualization, Boston, Massachusetts
 Scholarly Publishing Symposium, University of Wisconsin–Madison
- 2013 Open Access, Open Data @ UW, University of Wisconsin–Madison
 Workshop on MAGIC-type populations, Cambridge, United Kingdom
 Kansas State University Plant Breeding and Genetics Symposium, Manhattan, Kansas
 International Biometric Society / ENAR Annual Meeting, Orlando, Florida
- 2012 EvoSysBio meeting, Wisconsin Institutes for Discovery, University of Wisconsin – Madison
 EURATRANS annual meeting, Tutzing, Germany
- 2011 Quantitative Biology and Bioinformatics in Modern Medicine, Dublin, Ireland
- 2010 Fourteenth QTL-MAS Workshop, Poznań, Poland
- 2008 Emerging Statistical Challenges in Genome and Translational Research, Banff, Canada
- 2007 Systems Medicine Workshop, NHLBI, Bethesda, Maryland
- 2005 Fifth Australasian Human Gene Mapping Conference, Mt. Buller, Australia
 Joint Statistical Meetings, Minneapolis, Minnesota
 CSPS/IMS Joint Meeting, Beijing, China
- 2004 Taipei Symposium on Statistical Genomics, Academia Sinica, Taipei, Taiwan
 Seventh Annual Conference on Computational Genomics, Reston, Virginia
 Complex Trait Consortium Third Annual Meeting, Bar Harbor, Maine
 Nobel Symposium on Epigenetic Reprogramming in Development and Disease, Stockholm, Sweden
 Workshop on the Analysis of Complex Genetic Traits, Mathematical Sciences Research Institute,
 Berkeley, California
- 2002 Royal Statistical Society, London, England
- 2001 Classification Society of North America meeting, St. Louis, Missouri
 Modifier Analysis in Cancer Genetics of Experimental Mammals Workshop, Madison, Wisconsin
- 1996 WNAR/IMS Western Regional Conference, Pullman, Washington

Seminars

- 2017 Genetics Program, North Carolina State University, Raleigh, North Carolina
- 2016 Department of Genetics, Genomics, and Informatics, University of Tennessee Health Science Center,
 Memphis, Tennessee
 Department of Statistics, University of Auckland, Auckland, New Zealand
 Department of Biological Statistics and Computational Biology, Cornell University, Ithaca, New York
 Graduate Researchers interested in Data (GRiD), University of Massachusetts, Amherst, Massachusetts
 Bioinformatics and Computational Biology, Genentech, South San Francisco, California
- 2015 Holz Series in Research Data Management, University of Wisconsin–Madison
 Division of Biostatistics, Department of Preventive Medicine, University of Tennessee Health Science
 Center, Memphis, Tennessee
 Bioinformatics Division, Walter & Eliza Hall Institute for Medical Research, Melbourne, Australia

- 2014 Delta Program, University of Wisconsin–Madison
Department of Biostatistics, Harvard School of Public Health, Boston, Massachusetts
Danforth Plant Science Center, St. Louis, Missouri
- 2013 Graphics Working Group, Department of Statistics, Iowa State University, Ames, Iowa
- 2012 Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, Baltimore, Maryland
- 2011 Department of Biostatistics, University of Washington, Seattle
Department of Statistics, George Mason University, Fairfax, Virginia
Groningen Bioinformatics Centre, University of Groningen, Groningen, The Netherlands
Department of Biostatistics, Columbia University, New York
- 2010 Institute of Mathematics and Computer Sciences, Wrocław University of Technology, Wrocław, Poland
Department of Genetics and Animal Breeding, Wrocław University of Environmental and Life Sciences, Wrocław, Poland
Quantitative Biology and Modeling Initiative Program, Michigan State University, East Lansing, Michigan
Integrative Genomics Seminar Series, Vanderbilt University, Nashville, Tennessee
Evolution Seminar Series, University of Wisconsin–Madison
Curriculum in Genetics and Molecular Biology, University of North Carolina at Chapel Hill
- 2009 Department of Human Genetics, University of California, Los Angeles
Laboratory of Genetics, University of Wisconsin–Madison
Department of Statistics, University of Wisconsin–Madison
Department of Biostatistics & Medical Informatics, University of Wisconsin–Madison
Groningen Bioinformatics Centre, University of Groningen, Groningen, The Netherlands
Wellcome Trust Centre for Human Genetics, Oxford, United Kingdom
- 2008 Annual Retreat, Genomic Sciences Training Program, University of Wisconsin–Madison
Division of Human Genetics, Cincinnati Children’s Hospital, Cincinnati, Ohio
Computation and Informatics in Biology and Medicine (CIBM), University of Wisconsin–Madison
Evolution Seminar Series, University of Wisconsin–Madison
Department of Animal Sciences, University of Wisconsin–Madison
- 2007 Department of Human Genetics, University of Chicago
Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, Baltimore, Maryland
Statistics Program, St. Olaf College, Northfield, Minnesota
Center for Interdisciplinary Research, St. Olaf College, Northfield, Minnesota
Annual Retreat, Laboratory of Genetics, University of Wisconsin–Madison
Division of Statistics, Northern Illinois University, DeKalb, Illinois
Department of Biostatistics and Medical Informatics, University of Wisconsin–Madison
Department of Human Genetics, University of California, Los Angeles
Department of Statistics, University of California, Berkeley
The Jackson Laboratory, Bar Harbor, Maine
Department of Biostatistics, University of Michigan, Ann Arbor
- 2006 Institute of Genetic Medicine, Johns Hopkins University School of Medicine, Baltimore, Maryland
Department of Biostatistics, University of Michigan, Ann Arbor
Laboratory of Genetics, University of Wisconsin–Madison
Department of Biostatistics, University of Washington, Seattle
- 2005 Department of Statistics, University of California, Davis
Department of Genetics, School of Medicine, University of Pennsylvania, Philadelphia
Department of Mathematics and Statistics, University of Maryland, Baltimore County
Department of Epidemiology, Johns Hopkins Bloomberg School of Public Health, Baltimore, Maryland
Section for Medical Inflammation Research, Department of Cell and Molecular Biology, Lund University, Lund, Sweden

- 2004 Department of Biostatistics, Yale University, New Haven, Connecticut
 Marshfield Clinic Research Foundation, Marshfield, Wisconsin
 Genetics and Genomic Biology, Hospital for Sick Children, Toronto, Canada
 Genetic Interest Group, Center for Human Genetic Research, Vanderbilt University, Nashville, Tennessee
 Department of Biostatistics, University of Buffalo
 Immunogenetics, Universität Rostock, Germany
 Department of Epidemiology and Biostatistics, Memorial Sloan-Kettering Cancer Center, New York
- 2003 Departments of Statistics and Biostatistics & Medical Informatics, University of Wisconsin-Madison
 Department of Statistics, University of California, Los Angeles
 Department of Mathematics, Haverford College, Pennsylvania
 Department of Biostatistics, University of North Carolina, Chapel Hill
 Department of Biostatistics, University of California, San Francisco
- 2002 Section on Statistical Genetics, University of Alabama, Birmingham
 Department of Statistics, University of California, Berkeley
 Department of Biostatistics, Johns Hopkins University
 Department of Molecular and Cellular Biology, Roswell Park Cancer Institute, Buffalo, New York
 Department of Mathematics and Statistics, American University, Washington, DC
- 2001 Department of Statistics, Yale University
 Department of Mathematical Sciences, University of Wisconsin-Milwaukee
- 2000 Biometric Research Branch, National Cancer Institute, Bethesda, Maryland
 The Jackson Laboratory, Bar Harbor, Maine
- 1999 Department of Biostatistics, Johns Hopkins University
 Department of Biostatistics, University of Washington, Seattle
 Gemini Research, Cambridge, England
 Department of Biostatistics, Johns Hopkins University
 Department of Statistics, University of California, Berkeley
 Department of Molecular and Cell Biology, University of California, Berkeley
- 1998 Walter and Eliza Hall Institute of Medical Research, Melbourne, Australia
 Queensland Institute for Medical Research, Brisbane, Australia
 Walter and Eliza Hall Institute of Medical Research, Melbourne, Australia
 deCODE Genetics, Reykjavik, Iceland
 Biostatistics Department, University of Michigan, Ann Arbor
 Department of Statistics, University of California, Berkeley
 Department of Mathematical Sciences, University of Wisconsin-Milwaukee
- 1997 Department of Statistics, University of Chicago
 Department of Statistics, University of Wisconsin-Madison
 Department of Statistics, University of California, Berkeley
 Department of Statistics, Stanford University, Palo Alto, California
